

CLEANING AND CARE INSTRUCTIONS

For ACQUA, LEENA, QUBI, MONARCH, MOBI

TOILET SEATS

CLEANING

Manufacturer recommends cleaning *with warm soapy water and a soft cloth*. **No harsh detergents to be used**, as this can affect performance of soft close mechanism.

REMOVAL OF SEAT

Lifting the lid and seat vertically allows you to press the 2 buttons and lift for easy cleaning and refitting.

PURPOSE OF SOFT CLOSE

Manufacturer suggests to not force the seat and lid down, as this can affect mechanism. The toilet seat should be allowed to fall on its own after use.

If you require the toilet seat to stay upright, you need to lift the lid first, and then the seat.

The toilet seat is only designed to soft close downwards, not upwards.
