

Instruction to remove the drawer:

1. Slide out the drawer and take off the grey cover plate on each side of the drawer.
2. Push up the pins (as the photo) on both sides at the same time and lift out the drawer.

Instruction to put back the drawer on:

1. Slide out the runners (as the photo).

2. Put the drawer on the top of the runners.

3. Click the pins at the bottom of the runner (as the photo below) to lock the drawer. Make sure the both sides of runners are locked in, then slide the drawer until it clicks in place.

4. Push back the drawer into the cabinet.
